DR. SPINNEY

NO. 11 KEARNEY ST.

Treats All Chronic and Special Diseases.

YOUNG MEN.

WHO may be suffering from the effects of youthful follies or indiscretions, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. Spinney will guarantee to forfeit \$500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuations of the bladder, often accompanied by slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, the color will be a thin milky hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration to the genito-urinary organs.

Office hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, \$5.

Call or address,

DR. SPINNEY & CO.,

No. 11 Kearney St., San Francisco

P. S.—For private diseases of short standing a full course of medicine, sufficient for a cure with all instructions, will be sent to any address on receipt of \$10.00.
aug 11

TUTT'S PILLS

TORPID BOWELS,
DISORDERED LIVER,
and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels constive, Sick Headache, fullness after eating, aversion to action of body or mind, Erection of food, Irritability of temper, Low spirits, A feeling of having neglected somebody, Dizziness, Fainting at the heart, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a result of TUTT'S PILLS

PLAQUE BREEDERS

Susannah seems to be the chosen abode of dangerous maladies. During the summer months bloody flux and kindred diseases became an epidemic and carried off a number of citizens, and now that dread disease, diphtheria, is quite prevalent there. There seems to be no longer a doubt but that the trouble arises from the accumulation of filth within the city limits. The Advocate is eminently correct in saying those fatal visitations could be avoided if the people of the town would pay more attention to their vaults, pig pens and back yards. What is true of Susannah in this particular is applicable to many other towns; and it would be well for the people of Reno to bear this fact in mind. Reno is not as old by many years, nor is her location for sanitary purposes much, if any, better than that of Susanville. The head of every household should constitute himself a committee to see that no disease breeding cess-pools are allowed to accumulate or remain on his premises, and should continue his vigilance until the city becomes large enough and rich enough to adopt a uniform system of drainage. A little precaution of this kind, and a few dollars expended in sanitary purposes is much better and much more satisfactory than paying doctor's bills.

EXONERATED.

At the conclusion of the testimony in the Bergstein-Bishop Asylum controversy, Saturday evening, the Board by a unanimous vote exonerated Dr. Bishop of all charges brought against him. The result is, of course, gratifying to Dr. Bishop and his friends, but was in no sense a surprise to anyone at all familiar with the proceedings. As stated by the JOURNAL in the onset, when the charges were made specific by direction of the Board, they proved to be too weak to warrant a moment's attention, but the public seemed to demand an investigation, and it was had, and as a result nothing, absolutely nothing, is shown derogatory to Dr. Bishop or his management of the Asylum. Dr. Bishop has made a good record thus far, and if he continues with the same zeal and good judgment in the future that he has shown in the past, he will have justly earned, and will receive from the people, the encomium, well done, faithful servant.

AN EXCELLENT MOVE.

There is a movement on foot at Washington to establish a league among Representatives in Congress from the Pacific States and Territories, with the view of bringing their united strength to bear in aid of any and all matters affecting the Pacific slope. Nearly all the Pacific Representatives were present at the first meeting, and Senator Miller, of California, was made Chairman, and Charles Sumner Secretary. After an informal interchange of views respecting the needs of the Pacific Coast, including needed legislation on the Chinese question, the meeting adjourned subject to the call of the Chairman. It was decided to secure, if possible, appropriations for public buildings at San Francisco, Sacramento, Carson and other points on the coast, and to secure additional legislation on the Chinese question. The delegates will work as a unit on all these questions. This is an excellent move, and the wonder is, that something of the kind was not done long ago.

The ticket of the Rochester, N. Y., Democrat (Republicans) is commended to those uneasy men who are starting booms, etc. It reads as follows: "For President, the best Republican that can be named; for Vice President, the next best one."

There is a rumor current in diplomatic circles of the probable meeting of three Emperors, namely, the Emperors of Germany, Russia and Austria. It is said that the meeting was arranged by M. De Giers when he was visiting Bismarck recently.

The U. S. Supreme Court has decided that Mrs. Dorsey had a perfect right to leave her property to Jefferson Davis.

Conkling is reported \$50,000 in debt, caused by the late Northern Pacific deal.

The JOURNAL favors Indianapolis for the Republican National Convention.

The Senate Offices.

Notwithstanding the talk about re-organizing the Senate in deference to the civil service sentiment, it is probable that the Republican successors to the present Democratic officials will be chosen this week. The Democrats have made a clean sweep of the House officers and with a clear Republican majority in the Senate there is no reason, the Republican Senators think, why the organization should not be put in sympathy with the responsible party. There will be a hot fight over the election of Secretary. Mr. Gorham is confident of the support of the majority, but there are many Senators who declare that he is out of the race, cannot be elected under any circumstances, and will not be seriously considered as a candidate. The trouble with Gorham is that he represents an element in his party that has, after infinite labors, been sent far to the rear. To choose him Secretary now because two years ago he was the choice of a caucus of Senators representing an entirely different political sentiment, seems in the judgment of the new members of the Senate, unreasonable. The feeling against Gorham is so intense that it is doubtful if he could be elected if nominated, his presence as chief officer of the Senate would, it is thought, be a constant menace to party harmony. It is not yet positively known whether the friends of ex-Representative A. G. McCook, of New York, will push him as a candidate, but it seems that a sufficient number of Senators will support Edward C. McPherson, of Pennsylvania, to count him a candidate. Senator Harrison of Maryland has a new candidate for the Secretaryship, in the person of Captain Ranshell. He is an ex-Union soldier, who lost an arm in the war and he is said to be thoroughly qualified to perform the duties of Secretary.

What Will be Done This Week.

There will be very little legislative work in Congress this week, but the distribution of patronage in the House, the probable reorganization of the Senate offices and the meeting of the Republican National Committee will keep the place hunters and politicians busy. It is the opinion of the majority of Senators and Representatives that if the convention is held in the East it will go to Philadelphia, and if the West is again chosen Indianapolis will be selected as the place of meeting. Assistant Secretary of the Treasury John C. New, assisted by the Republican members of the Indiana delegation, are working like beavers to get the convention for Indianapolis. The principal argument advanced for Indianapolis is that the holding of the convention there will give the ticket a boom that will assure a Republican victory in that State next Fall. John C. New, being one of the owners of the largest hotel in the city, is prepared to guarantee good accommodations for delegates. Chicago seems to be out of question, as it is not thought expedient to hold the convention twice successively in the same city.

Payment for Emancipated Slaves.

Referring to a report that suit will soon be brought in the United States Court of Claims to recover the value of slaves emancipated during the war, General Templeton and several prominent lawyers, having been consulted, scouted the idea that Texas has any more claim on the Federal Government than any other Southern State. They say the scheme is a very foolish one, and if anybody is engaged in it, which is regarded as doubtful, it is for political purposes.

The Commissioner of Pensions says it is the intention of the Department to employ all legal means to break up the existing practice among a certain class of brokers and agents of taking certificates from pensioners as collateral security for money advanced. Suits to test the constitutionality of the law forbidding this practice are now pending in Philadelphia and Boston.

Judge Thoman of the Civil Service Commission, will conduct the examinations, at Cincinnati, for local and general departmental service, on the 20th, and at Louisville on the 21st instant. The examinations for general departmental service will be held in Tennessee, Alabama, Mississippi and Georgia, between January 20th and February 20th next.

"A genuine Southern ticket" which the Fort Scott, Texas, Record advocates, reads: "For president, Jefferson Davis; for Vice President, Fitzhugh Lee." The Record seriously urges the Democrats to nominate this ticket, which it says "would sweep the South."

Of the 113 Democratic papers in Indiana, twenty-two have declared for McDonald, and five for Hendricks; the others are non-committal.

A TERRIBLE PROPHECY.

The Red Sunsets, Cyclones and Earthquakes Foretelling Coming Disaster—How to Meet It.

The recent mysterious appearances following sunset and preceding sunrise have attracted wide attention from students of the skies and people generally. During the days of recent weeks the sun seems to have been obscured by a thin veil of a dull leaden hue, which, as the sun receded toward the horizon, became more luminous, then yellow, then orange, then red; and, as night settled down upon the earth, a dull purple. At first it was thought these appearances were ordinary sunset reflections of light, but it is now pretty certain that they are either the misty substance of the tail of some unseen comet, in which the earth is enveloped, or a surrounding stratum of world dust or very small meteors. Professor Brooks, of the Red House Observatory, Phelps, N. Y., has turned his telescope upon these objects, and discovered what he thinks are myriads of telescopic meteors. If it is unorganized world dust, or decomposed vapors, as the Democrat and Chronicle, of Rochester, N. Y., remarks: "How is this matter to be disposed of? Will it settle and form a deposit upon the earth, or remain a partial opaque shell about the earth to cut off a portion of the sun's light upon it?"

Whatever the mystery is, there is no denying that some very strange forces are at work in the upper air. The terrible tornadoes and cyclones, which have swept our country, and the fearful volcanoes and earthquakes which have destroyed so many cities and thousands of people—the tidal waves, which mysteriously rise and fall on coasts hitherto unvisited by them—the tremendous activity which is evident in the sun by the constant revelation of enormous spots upon its surface—all indicate unusual energy in the heavenly bodies.

These circumstances recall Professor Grimmer's prophecies that from 1881 to 1887, the passage of the five great planets—Mars, Neptune, Jupiter, Uranus and Saturn—around the sun would produce strange and wonderful phenomena. He says: "The waters of the earth will be come more or less poisonous. The air will be foul with noxious odors. Ancient races will disappear from the earth." He attempts to prove his prophecy by the fact that in 1720, when Mars and Saturn made their passage around the sun coincidentally, great destruction and mortality visited all parts of the globe. He also found the same results in previous perihelion passages of the planets, and argues that these circumstances always produce epidemic and destructive diseases, which will baffle the skill of the most eminent physicians; that the poor will die by thousands, the weak and intemperate falling first, those whose blood has been impoverished by excess of work or dissipation next, and only those who are in comparatively vigor shall escape to enjoy the era of renewed activity and prosperity, which will follow the period of destruction.

Inasmuch as the entire world seems subject to the sway of the heavenly bodies no part of the earth, he thinks, can escape scourging. He even predicts that America will lose over ten millions of people; that farmers will be stricken with fear and cease to till the soil; that famine will make human misery more wretched. That hundreds will flee to overcrowded cities for aid in vain. That sudden changes in ocean currents, temperature and surroundings will entirely transform the face of nature and climate of countries; that the air will be so foul with malaria and other noxious gases, that those who survive will be troubled with disorders of the digestive organs. That many who escape other ills will be stricken with dropsy and suddenly pass away, while others will grow thin and drag out a miserable existence in indescribable agony for weeks. Neuralgic pains in different parts of the body will torment them. They will easily tire and become despondent. A faint, hot feeling will be succeeded by chilly sensations while hallucinations and dread of impending ill will paralyze all effort. "The birds in the air, the beasts of the field and even the fish of the sea will become diseased, poisoning the air and poisoning the waters of the globe." We are told on the other hand that those who shall pass through this period of trial will have larger enjoyment of life and health. The earth will yield more abundantly than ever before. The animal kingdom will be more prolific and life prolonged very materially. This prolongation of life will be owing to the healthy electric magnetic influences that will pervade the atmosphere. It would perhaps seem that the present redness of the sun, and the presence of a belt or veil of cosmic matter, justified, in a measure, the prediction of Professor Grimmer, but disturbing as his prediction may be we are told for our comfort that the strong and pure blooded need have little to fear in these calamities, that those who are delicate or indisposed should adopt means to keep the system well supported and the blood pure and that the most philosophical and effective method of accomplishing this is to keep the kidneys and liver in good condition. From the testimonials of such men as Dr. Dio Lewis and Professor R. A. Gunn, M. D., Dean of the United States Medical College, New York, and thousands of influential non-professional people, it seems almost certain that for this purpose there is no preparation known to science equal to Warner's Safe Cure, better known as Warner's Safe Kidney and Liver Cure. This medicine has ac-

quired the finest reputation of any preparation that was ever put upon the market. It is a radical blood purifier, which soothes and heals all inflamed organs, strengthens the nervous system, washes out all evidences of decay, regulates digestion, prevents malassimilation of food in a philosophical and rational manner, fortifies the system against climatic changes and malarial influences and the destructive agencies which seem to be so abundant in these "evil days."

It is not our purpose to dispute the correctness of Professor Grimmer's prophecies. As we have said, the marked disturbances of the past few years would seem to give a semblance of verification of his history. It is certain, as above stated, that we are passing through what may be regarded as a crucial period, and it is the part of wise men not to ignore, but to learn to fortify themselves against the possibility of being overcome by these evils. It is a duty which each man owes to himself, and his fellows, to mitigate as much as possible the suffering of humanity, and in no way better can he accomplish this purpose than to see to it that he, himself, is fortified by the best known preparation in the strongest possible manner, and that he exert the influence of his own example upon his fellows to the end that they, too, may share with him immunity from the destructive influences which seek his ruin.

Foreshadowing of the Presidential Canvass.

[S. F. Bulleth]

The election of Speaker for the Lower House of Congress is regarded as of more than usual importance, because that officer is supposed to have more influence in shaping the issues of the Presidential campaign than any other. He appoints the committees who will originate much of the legislation of Congress. This legislation will go largely to the framing of issues for the pending canvass. The adroit politician inquires at every step: How will this measure be regarded by the people on the eve of a Presidential election? There were three Democratic candidates for the office of Speaker. All these were capable men. Cox is a moderate tariff man, inclined to be conservative. He represents a district of New York, which has become a great manufacturing city, or rather a great depot for home manufactures. There is a large importing interest also, which at present is not making any strong opposition to a tariff. If Cox had been elected it is not probable that he would have placed free traders at the head of any important committees.

Randall would stand by the manufacturers of Pennsylvania. He has been true to the leading interests of his State in this particular. Even Kelley, the apostle of protection, could not find much fault with Randall; at least, as a Democratic Speaker, he would be less dangerous to protection than any other of the prominent candidates. When, therefore, he was defeated in the Democratic caucus, there was general regret on the part of Democrats and Republicans in Pennsylvania. Of course State pride had been enlisted. But back of that was the general conviction that Randall, with the record already made, would be a safe man for the leading interests of that great State. The defeat of Cox and Randall was, in some sense, the defeat of the leading interests of two great States. Tilden was known to prefer Randall as the more satisfactory man on the eve of an important election. Yet his preferences did not seem to have any great weight with the party.

The election of Carlisle is not exactly a free trade triumph, because it is not probable that the party which supported him will make that a distinct issue. It means, that at present a candidate who is only one remove from a free trader, resting temporarily in the doctrine of a tariff for revenue, is more acceptable to the party than one who is the friend of protection. In the selection of committees this drift will be recognized. It is not likely the fact will be overlooked by the leaders of the Democratic party that a great manufacturing interest is being developed in the Southern and Southwestern States. There is nothing like self-interest to convert free traders into protectionists. In the State where manufactures are few, free-trade doctrines obtain their greatest hold. Where manufactures are a leading interest, there protection has its stronghold. Kentucky has to-day a relatively small manufacturing interest. But Ohio, on the opposite side of the river, has come to be a great manufacturing State. North Carolina does not figure prominently in manufactures. But Georgia has already made immense progress in this direction. Moreover, the manufacturer is getting continually closer to the raw material. Hence the cotton factories of the Southern States and the iron furnaces of Tennessee.

The abstract doctrines of free trade obtain in the New England States, but rather as a science than as an expedient policy for the present time. There is this curious fact, that while the science of free trade is gaining ground through the schools of the North, the doctrine of protection is gaining ground in the South through its growing manufacturing interests. Profs. Sumner at Yale College and Perry at Williams College, are not only distinguished teachers, but authors of free trade books which have been widely read. These and other men, who unite the function of teacher with that of publicist, are surrounded by powerful tariff influences. Among the manufacturers of New England they have but a small

following. But among students and scientific men they have a large and growing one. They do not organize a political party, nor are they the recognized leaders of one. Both protection and free trade have so many ramifications that it is impossible to draw party lines strictly on such issues. A Pennsylvania Democrat will talk gingerly about free trade, if at all; but a Kentucky Democrat from a district where there is not a single manufactory of any prominence, may be a bold free trader.

The drift of the Democratic party is toward free trade. It will be interesting to note just how far it will go in that direction during the present Winter. Of one thing it may be certain. It will not go beyond the point where a strong public conviction will give it support. But there is such a thing as manufacturing public opinion to sustain an issue. The Democratic party is not a unit by a long way on the currency question. There is a strong element in favor of a national paper currency, redeemable at all times in gold and silver. There is another element which is opposed to anything but a metallic currency. These differences, though not so radical, are hardly reconcilable. It is doubtful if these differences are reconciled during the present session of Congress. A great deal of legislation will be foreshadowed which will not come to anything. Issues will be framed not so much on actual legislation as on what parties propose to do hereafter. In six months the Presidential nominations will be made, and looking to that result, the canvass was fairly begun by the election of the Speaker.

General Crook's Report.

General Crook has submitted his report of his operations among the Apache Indians during the last year. He says that the Apaches had not only the best reasons for complaining, but had displayed remarkable forbearance in remaining, as they had been plundered of the supplies provided by the Government, and they speak with bitterness of nearly all their agents. To avoid crowding at the agencies the General allowed the different bands to settle anywhere within the reservation and they have thus raised the largest crop of corn in their history. Public sentiment on the frontier does not consider the killing of an Indian as murder, and this feeling, added to the effects of several frontier newspapers, the General considers responsible for much of the trouble. To disarm the Apaches, the veteran fighter believes almost impossible, but a severality of land holdings is not only possible, but desirable, and the ballot is said to be a necessary sequence of even partial civilization.

George Alfred Townsend telegraphs to the Cincinnati Enquirer: "I think I have discovered that James G. Blaine and his friends are working for Judge Miller of the Supreme Court to be the Republican candidate for President."

The declaration of the Ohio wool-growers for a restoration of the tariff on that article will trouble such Democrats as Mr. Hewitt, who has been declaring for free raw materials.

It Seems to Satisfy

A family want, and I wonder how we ever got along without Parker's Ginger Tonic. It cured me of nervous prostration, and I have used it since for all sorts of complaints in our family. Mrs. Jines, Albany.

Cleanliness and purity make Parker's Hair Balsam the favorite for restoring the youthful color to gray hair.

MISCELLANEOUS.

An Old Soldier's EXPERIENCE.

"Calvert, Texas,

May 3, 1883.

"I wish to express my appreciation of the valuable qualities of

Ayer's Cherry Pectoral

as a cough remedy.

"While with Churchill's army, just before the battle of Vicksburg, I contracted a severe cold, which terminated in a dangerous cough. I found no relief till on our march we came to a country store, where, on asking for some remedy, I was urged to try Ayer's Cherry Pectoral.

"I did so, and was rapidly cured. Since then I have kept the Pectoral constantly by me, for family use, and I have found it to be an invaluable remedy for throat and lung diseases.

J. W. WHITLEY."

Thousands of testimonials certify to the prompt cure of all bronchial and lung affections, by the use of AYER'S CHERRY PECTORAL. Being very palatable, the young set children take it readily.

TOWN AND COUNTRY.

THE "JOURNAL'S" ILLUSTRATED
ANNUAL FOR 1884.

In accordance with its usual custom the JOURNAL will present its subscribers with a Holiday present of the JOURNAL Annual for the year 1884, with fifty illustrations on wood, chiefly by Granville Perkins, Thos. Moran, Harry Fenn, and other celebrated American artists. The Annual will also contain a calendar; and its table of contents will embrace an exceedingly interesting and varied assortment of miscellany; also choice selections of poetry; besides much practical knowledge, pertaining to the household.

IN AND OUT OF TOWN.

What is Being Said and Done in a Small Way.

Judge Boardman and R. P. Chapin are registered at the Baldwin, San Francisco.

Gen. Hancock is at Salt Lake. He will probably pass through Reno tomorrow.

Fulton's house is looming skyward. This fine weather is particularly fine for him and his house.

Over 150 residents of Baker City, Oregon, have been indicted for violating the Sunday law.

Wm. Shaff, the carpenter, who has been out in Humboldt county all summer, returned home yesterday.

Mrs. Winzell has closed her millinery shop, and gone to the Bay. She intends to return to Virginia after awhile.

O. A. Crandall, of the firm of Crandall & Co., manufacturers of seamless hosiery, San Francisco, was in town yesterday.

Dow Huntsman, of the Railroad Hotel at Battle Mountain, was a passenger for San Francisco yesterday morning.

The net proceeds of the fair held in Virginia last week, in aid of the Catholic Orphan Asylum, amounted to over \$2,000.

There is a curiosity at the Palace Hotel in the way of a steel lass-ropes, which vaqueros say is just what has been wanted for years.

E. J. Parkinson, of Carson, will be taken to Oakland this morning, as a change of atmosphere is necessary for his speedy recovery.

County Commissioner Werrin, of Storey, was in town Sunday. He was buying supplies from our farmers for Virginia's Christmas dinners.

An old man by the name of Comstock was burned to death in his cabin in Indian Valley last Wednesday. He was 75 years old and an old resident of Gibsonville.

Jim Shea has hauled his freight teams off the Plumas county road for the winter, and will pass the winter in Reno. His partner, McNair, will remain at the Plumas Eureka mine.

Miss Lilly Knust arrived in town yesterday, and was warmly welcomed by all old friends. She starts for Susanville this morning to visit friends in that section.

Esmeralda county has accepted and the county officers are now occupying the new court house at Hawthorne. The county prisoners were moved over from Aurora last week.

Quite a crowd congregated at the depot yesterday morning, expecting to see General Hancock, but the General's car was not attached to the train. He will probably be along this morning.

When you get ready to send below for goods go to any merchant in town and tell him you want his lowest cash price and ten to one you will find he will sell you goods cheaper than the San Francisco merchant.

BREVITIES.

Pierce Evans is at Susanville.
Bob Lindsey has gone to Stillwater.
F. J. Winchell has gone to Long Valley.

There are fifteen prisoners in the county jail.

Alvaro Evans and C. Derby are back from Pyramid.

Senator Marker came down from Washoe yesterday.

S. M. Jamison and wife leave this morning for a trip to the Bay.

"Backskin" Norton is taking out some fine copper ore from his Peavine mine.

It is said that D. R. Sessions will shortly sever his connection with the Eureka Sentinel, and go East to live.

W. F. Berry has returned from a trip through Plumas and Lassen counties. He says it is even very quiet up in that section.

Tom Hymers, Gen. Clarke, and Dave Lachman, of the Golden Fleeces, are going up to Peavine to-day to take a look at their mine.

Geo. H. Bayley and Rob Moore, of South Fork, who were in Alturas last Monday, told an independent reporter that they have of late been riding over the cattle ranges and that they never before at this season of the year, saw stock looking so well. Some few old cows are getting thin, but young and growing cattle are fat, and at present there is lots of good beef on the hills.

Rich gold-bearing quartz was found in cutting out the station east of the joint Union and Sierra Nevada winzes, and the same continues in the north drift in Sierra Nevada ground which was started Saturday. At a depth of 105 feet in the Best & Belcher winze, the 2500-foot level has cut into on the west side a base black material filled with bright iron pyrites.

Masonic Appointment.

Sir Knight Philip H. Emerson, says the Ogden Pilot, is in receipt of an appointment from Robert E. Withers, Grand Master of the National Encampment of Knights Templar of the United States, appointing Judge Emerson as his representative to visit all the Subordinate Commanderies in the State of Nevada, and the Territories of Utah, Montana and Idaho, and to report to the Grand Master all matters coming under his observation of special interest to the Grand Master or Grand Encampment. The commission is dated at Wytheville, Virginia, and continues in force until the next Triennial Conclave at St. Louis in 1889.

Writ Denied.

It will be remembered that some three months ago D. Appleton & Co., through their attorneys at Carson, made application to the Supreme Court for a writ of mandamus to the State Board of Education, to show why they had not complied with the terms of an alleged contract for the introduction of the Appleton readers in the public schools of Nevada. The writ has been denied.

Nevin's Bondsmen.

Bondsmen of Treasurer Nevin, representing \$100,000, met at Virginia last Saturday evening and decided upon a test suit. They assessed themselves ten per cent. of the amount each is called upon to pay, four per cent of which is to be given to lawyers to conduct the suit, and six per cent. to be held in reserve, to be paid the lawyers if they win the suit.

Big Strike.

Charley O'Neil received a telegram from Ward, of Quincy, last evening, that rich gravel had been struck in the Riverdale mine the night before. The Riverdale is owned by Charley and his brother and mother, and a man named Russell. Charley feels elated and the JOURNAL hopes he will be a Bonanza King.

The State's Proportion.

Auditor Williams informs a JOURNAL reporter that in the December settlement with the State, Washoe county will be allowed for services of its officers for the past six months, as follows: Auditor, \$376 65; Assessor, \$506 60; and the Treasurer about \$1,400.

Christmas Candies.

A Bourgeois (Cokes' corner) has the finest assortment of French and American candies in Reno. Also the very best home-made candy. In purchasing for the holidays it will be to your interest to examine his stock.

Resolved, That Dr. Bishop be exonerated from the charges preferred by Dr. Bergstein.

J. W. ADAMS,
GEO. TUFLEY,
W. E. F. DEAL,
J. F. HALLOCK,
G. W. HUFFAKER.

Miss Nevada, the singer, lost "\$150,000 in U. S. bonds" the other day, according to the Paris Evening Post. This is thought to be an improvement on the diamond business.

PREPARING FOR CHRISTMAS.

estival, Fair and Entertainment for the M. E. Sunday School Christmas Tree.

The ladies of the M. E. Church announce that they will commence the festival, fair and entertainment, in connection with their Sunday School, by inviting the general public to a nicely prepared dinner Wednesday and Thursday, Dec. 12 and 13, '83, at 12 noon of each day at Armory Hall, Odd Fellows' Building, where the hungry can get a square meal of chicken and turkey for 50 cents. The literary entertainment will commence each evening at 8 o'clock, after which the ladies will wait on all who desire to purchase fancy work, of which they have prepared numerous useful articles. After the entertainment lunch can be had, as tables will be spread, for 50 cents. Literary programme:

WEDNESDAY EVENING.

Chorus..... Reno Glee Club
Dialogue..... Bonnie Waggoner, Lillie Ordway, Minnie Loomis, Stella Nash
"Pass Under the Rod" and Cantata repeated.

The admission will be twenty-five cents to the literary entertainment, and the dinner will be served for fifty cents.

Still Hopeful.

The Candelaria True Figure takes a hopeful view of the future, and says: "The closing down of the Northern Belle mine, the discharge of twenty-five men from the Mt. Diablo and the eventual shutting down of the mills at Belleville, for want of ore to crush, would tend to persuade one not fully in possession of all matters connected with the case that the bottom had dropped out of Columbus district, but it has not. The Mount Diablo is still running, though the force is reduced, the Columbus Consolidated has not pulled its fires nor does it mean to do so for some time to come, and the recent operations in the lower levels of this mine are of a character to make the outlook indicate anything but a collapse. It will not be long before the Columbus Consolidated will be heard from in a very agreeable tone to its stockholders. But better still, and notwithstanding it is a long, and, perhaps, short, look into the future, the present idle state of the Holmes and Northern Belle properties will not continue a day longer than is actually necessary. Reliable information has been received from the management of the Holmes Company to the effect that operations will be resumed at an early day on a larger scale than ever before." The JOURNAL hopes the editor's predictions may prove true, and that Candelaria may soon take its old position among the solid mining districts of the State.

The Indians.

Among other items of appropriation for the Indian service for next year increases have been asked for and recommended as follows: Arizona, \$18,000; California, \$16,000; Dakota, \$7,000; Idaho, \$4,000; Montana, \$1,000; Nevada, \$6,000; New Mexico, \$10,000; Oregon, \$6,000; Utah, \$14,000; Washington Territory, \$6,000. An appropriation of \$85,000 is recommended to carry out the agreement with Chief Moses. An increase of \$36,000 is recommended for the support of Indian schools at Forest Grove, Or.

Strength for Mind and Body.

There is more strength restoring power in a bottle of Parker's Ginger Tonic than in a bushel of malt or a gallon of milk. This explains why invalids find it such a wonderful invigorant to mind and body.

Congressman Davis will introduce a bill providing for the promotion of General Sheridan to the rank of General of the Army, and General Hancock to that of Lieutenant-General.

Active negotiations have been opened with the United States Government for reciprocal conditions beneficial to trade between Cuba and the United States.

Senator Jones Interviewed.

Senator Jones was interviewed in Chicago yesterday, and the dispatches announce that he said he was opposed to the passage of any law further restricting the coinage of silver; he also referred to the uncompromising hostility of Americans on the Pacific Coast to the importation of any more Chinese; in answer to his Presidential preference he said "No one, particularly. There are half a dozen good men from among whom to choose."

Congressman Sumner, of California, has introduced a bill to fix and establish a maximum rate of fares on the Union Pacific and Central Pacific Railroads. The bill provides that after 40 days from the passage of the Act, it shall be unlawful for those companies to charge more than three cents per mile on first-class passage, two cents for second-class, and one and one-half for third-class.

Representative Converse, of Ohio, will introduce a bill providing for the restriction of the duty on clothing, wools, combing wools, carpets, and other similar wools, to what they were prior to the enactment of the present tariff law.

Butler is getting in his work. He is determined to make the Democrats take the dish of broth he had prepared for them whether they like it or not. In the dispatches to-day is an item from Lynn, Mass., to the effect that the President of the Workingmen's Association of that place has called a National Convention of the Workingmen's National party, for the purpose of nominating candidates for President and Vice-President. This is a very significant movement. It evidently means the nomination of Butler by the Labor organizations of the country in advance of the Democratic and Republican National Conventions. In such case the Democrats would be forced to endorse him or submit to the loss of a large share of their voters. Mr. Tilden and his party found it an easy matter to defeat enough votes from Butler to defeat him for Governor of Massachusetts, but when it comes to measuring strength with him on a broader field of action, they are liable to find him a formidable antagonist. —Sac. Bee.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw-lyr

John Barrett, of Virginia City, a professional stone cutter, and one of the best in the business, came down from the Comstock yesterday and will remain in town a few days. He will be pleased to receive orders for grave stones or monumental work of any kind. He has rooms at the Lafayette Hotel. Mr. Barrett is the gentleman who prepared the Nevada block for the Washington monument.

Nothing is so reliable as Ayer's Cherry Pectoral for colds, coughs, in short for any and all derangements of the respiratory organs, which tend towards consumption. In all ordinary cases it is a certain cure, and it affords sure relief for asthma and consumption, even in advanced stages.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, cheap or phosphate powders. Sold only in cans.
ROYAL BAKING POWDER CO.,
novi-daw 100 Wall St., New York.
